

Match Making 2015

WHAT CAN A DESIGNER DO FOR YOU?

A lot, actually!

A designer knows how to give form, analyse, research, visualise, involve users, innovate, create coherent systems, and much more.

Please accept this invitation to meet our newly qualified designers in a relaxed atmosphere and don't miss out on their exhibition!

Mads Nipper, CEO at Grundfos and Affiliate Professor at Design School Kolding, will be talking about the value of design in business.

BEST REGARDS

PER HJULER
